-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "*One embodiment of the present invention*", in line 1, should be deleted.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by

Fiedler 3,430,972.

Fiedler sets forth a move, lift, and support device comprising a step ladder frame having a handle (viewed as a portion of the topmost horizontal member), a pair of legs, and a plurality of steps; a hand truck frame having legs; a hinge 34 pivotally connecting the step ladder frame to the hand truck frame, which includes three positions

(as illustrated in Figures 1, 2, and 3); and a J-shaped hook 52 pivotally connected to the hinge (via member 20) for locking the position of the frames, the hook capable of being actuated under gravity and would/could help resist the over-rotation of the steps; the top step (at part thereof) being pivotally connected to the ladder frame (respectively via hinge member 34).

Allowable Subject Matter

Claims 1 and 2 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As concerns claims 5, 8, and 13, structural limitations pertaining to the ***hinge*** comprising a ***bracket*** having a ***notch*** engaging a ***pin*** attached to the hand truck frame, along with the other structural limitations are neither taught nor suggested by the prior art of record.
